5 SAM CREDITS: Qualified by the American Board of Radiology in meeting the criteria for self-assessment toward the purpose of fulfilling requirements in the ABR Maintenance of Certification Program on 10/17/17 and 10/30/17.

GENERAL INFORMATION

PROGRAM DESCRIPTION AND OBJECTIVE

It is the intent of the North Carolina Chapter of the ACR to provide practicing radiologists, and other health care professionals involved in the diagnosis and treatment of breast diseases with a review to identify current and emerging concepts in breast imaging with an emphasis on practical approaches to both common and uncommon breast diseases; to emphasize the importance of interdisciplinary approaches in the care of breast cancer patients; to identify common malignant breast lesions, unusual breast lesions, principles of imaging guided breast biopsy, and radiologic-pathologic correlation; to apply the most recent ACR BI-RADS Atlas principles of breast composition, primary and secondary features (e.g. primary: masses, calcifications, architectural distortion and secondary lymphadenopathy, nipple and skin changes) to the interpretation of breast imaging examinations; and, to detail rigorous technique and interpretation standards across all breast imaging modalities, namely digital mammography, digital breast tomosynthesis, breast ultrasound and magnetic resonance (MR).

REGISTRATION FEES*

UNKNOWN DIGITAL SCREENING CASES

A series of 25-30 baseline screening mammograms will be presented, many with subtle cancers. Radiologists will be asked to rate unknowns as "normal" or "re-call." Test may be taken Friday afternoon before and/or after lectures on Friday evening, including all day Saturday. Dr. Walsh's Sunday lecture will present the correct answers and discussions. There is no extra charge for this activity as it is being supported by an in-kind donation. Number of participants is limited.

Interested radiologists should reserve their time slot with Sarah Franklin at 336.946.6372 or sfrankli1420@gmail.com
